

Travel Medical Insurance Addendum

For short term missions team members and individuals going to Zimbabwe with Lasting Impressions Wilderness Training Corporation (Lasting Impressions).

In order to provide protection for those people going to Zimbabwe to work with the Lasting Impressions ministry, we are requiring that each person purchase travel medical insurance. Below you will find the contact information for LIAISON International, an insurance company specializing in low-cost insurance for missionaries. We are requiring that each individual purchase a policy providing coverage for the entire duration of his/her trip (dating from departure to arrival back home) with at least a maximum of \$100,000.00 with a \$250.00 deductible for their trip. (See the brochure for the additional items covered on this policy; such as medical evacuation, etc.) You may use your own insurance, but you must provide proof of insurance coverage equal or greater to that offered by the LIAISON International policy.

* You will be prohibited from going on your trip if conformation of your insurance is not delivered to the Lasting Impressions board before your trip.

Here is the link to the online brochure and application, as well as the phone number for LIAISON International.

* The purchase and/or agreement to purchase Travel Medical Insurance is not acceptance of liability on the part of Lasting Impressions Wilderness Training Corporation. (See liability release in Short Term Missions application.) Lasting Impressions has no affiliation with LIAISON International, and provides contact information solely for the convenience of short term missions members.
